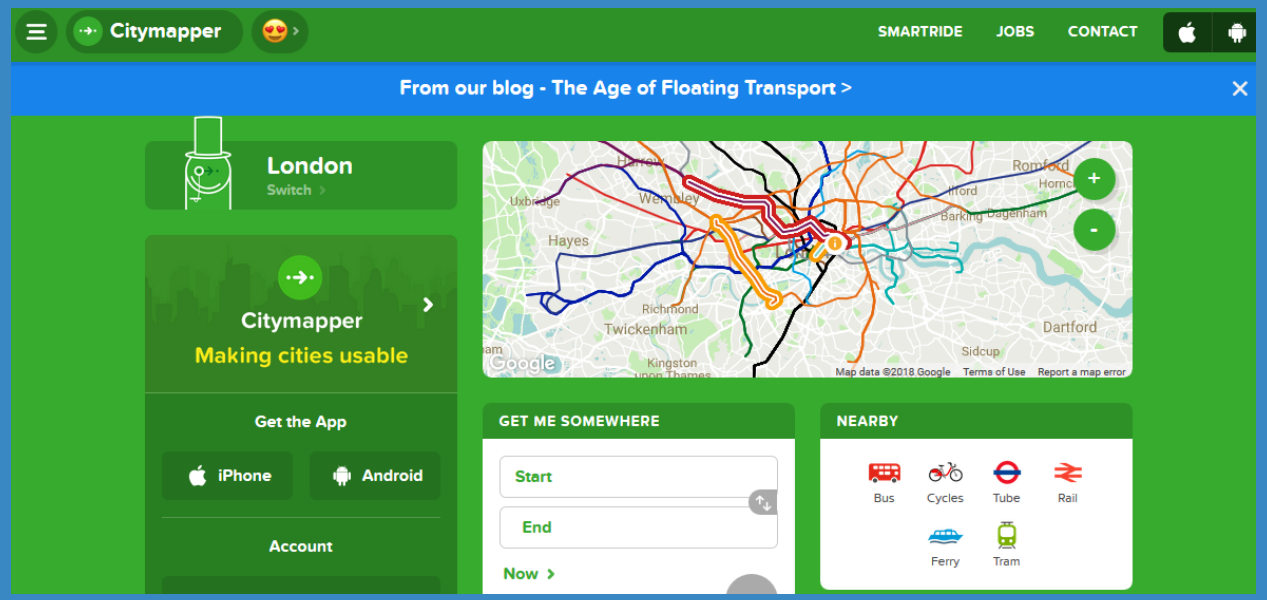
How to install Apps

Google App Store

Apple App Store

Then choose search to find app of interest

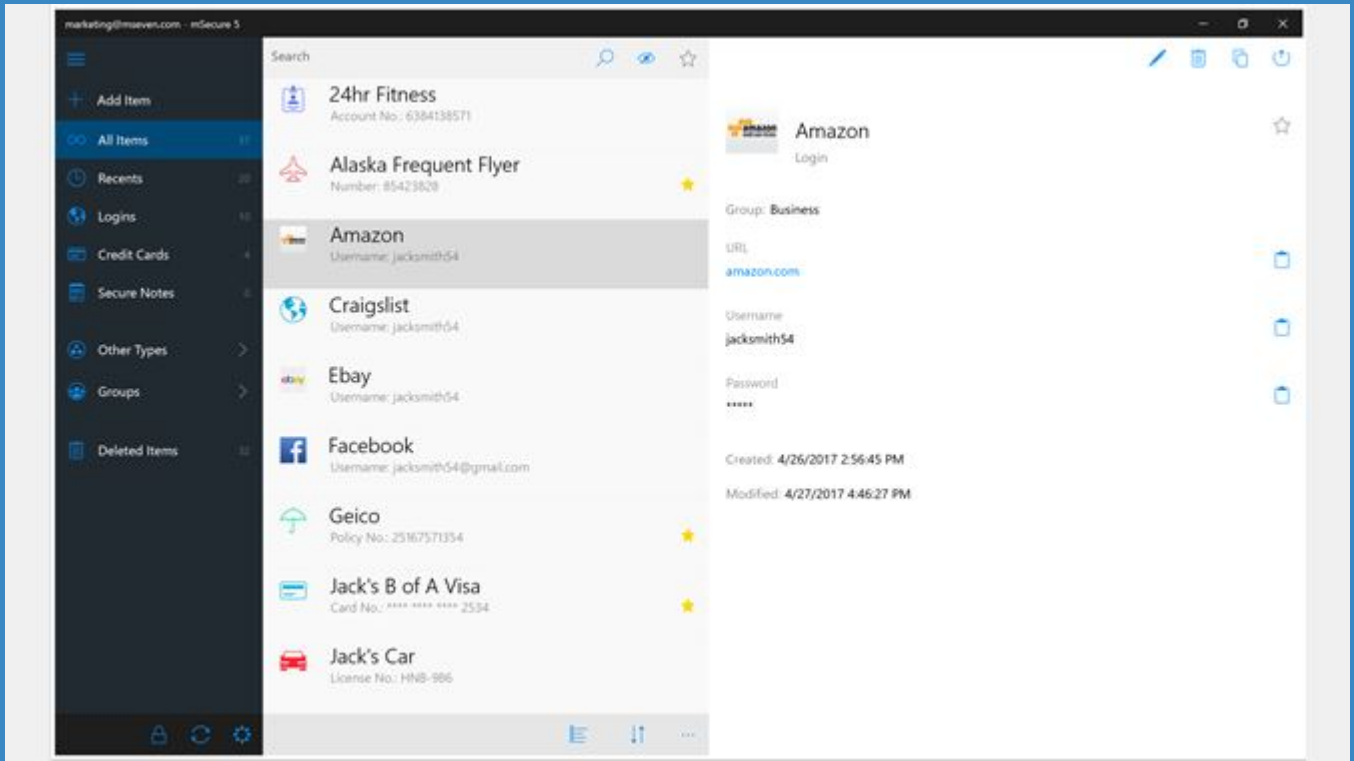


Citymapper

The most useful public transit app and mapping service around

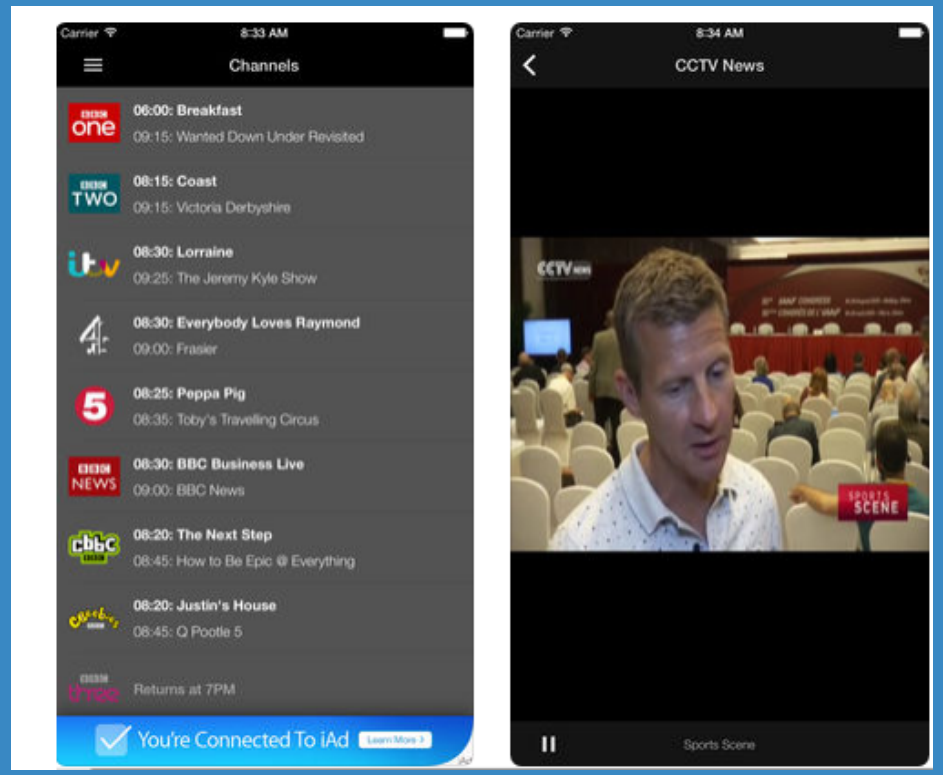
The "Get me Somewhere" is it's best feature providing journey planning options on routes & transport methods.
Live location provides a where am I view even to wich direction am I facing via a radar type curser.
Easily selectable underground maps, train routes, bus routes with live times.
Save journeys for offline

Spotify is a music streaming service that launched on 7 October 2008
It provides DRM-protected content from record labels and media companies.
Spotify is a freemium service; basic features are free with advertisements (one or two every half an hour of music)
Available free for most modern devices iOS, and Android smartphones and tablets
Spotify provides access to more than 35 million songs/music.
Music can be browsed through or searched for by parameters such as artist, album, genre, playlist, or record label so you can create your own playlist.



mSecure

mSecure is the most secure and straightforward solution to storing, sharing, and managing passwords and sensitive information.
Secures data and passwords behind industry standard AES-256 encryption with one master password



TVCatchup
NEVER MISS A SHOW AGAIN

A legal internet television service for viewing free-to-air UK channels on the move. All the main free channels. Allows you to watch that World Cup match even while you are out shopping. Great holiday app.

BBC NEWS

Get the latest breaking news from the BBC and our global network of journalists.

Stories are arranged in topics including top stories, UK news, world news, politics, business, technology and sport.

The app offers the BBC News Channel streamed live in the Video tab
