

## WALKS REPORT

Again we have had a mixed success with our walking experiences in the beginning of 2024. The last one in December was a very windy but dry walk from the “Range” to South Stack and back in Holyhead. In January we had mixed weather so the walk in LLaneilian was walked in beautiful weather while the Llanfaelog walk had to be cancelled due to the poor weather. Both walks in February were cancelled, the first in Aberffraw because of the leader suffering from “Man Flu” and the Wylfa walk due to very wet and soggy footpaths. In March we had good weather as both walks were completed, the first was the rearranged walk in Llanfaelog and the second was a lovely walk around LLyn Cefni where we enjoyed the flora and fauna of the Reservoir. There are two walks pencilled in for April we are hoping for better weather to arrive so we can enjoy them at our leisure. All details of walks are on the website and all members are welcome, but please inform the Leader if you decide to attend the walks.
