

WALKS REPORT

This session of walks again had mixed success with the weather as usual taking its toll on whether the walks took place or not. The walk for August in Moelfre did not take place due to bad weather forecast. We had better luck in September as both walks, the re-scheduled Llanbadrig walk and Benllech walk, were well attended and enjoyed, albeit a very muddy on the Benllech walk. In October we had very nice weather to do both walks which were around Moelfre and Llyn Maelog which were well attended even though we had to re-address the Llyn Maelog walk due to part of the footpath around the Lake being flooded. Both walks in November (Llyn Coron and The Range) were cancelled again due to inclement weather forecasted. However the Range walk was rescheduled for December which was quite a windy walk but enjoyed by those who attended. Details of all the walks are on the Anglesey U3A website, members old and new are always welcome on our walks, so if you want to keep fit and enjoy the countryside of our beautiful island for free come and join us you won't be disappointed.
