

Random 8 words

I have picked 8 random words. The rules of this project are quite simple; write a piece that includes these words, in their current form. There are 3 sets of random words – pick *one* set and write one piece that has all the words included.

You cannot change the word to plural or past-tense etc, and all words need to be in the one piece at least once. Write in any style or any genre – Min 50 and max 1000 words.

Have fun!
