

All change at King's Cross - Monday 25 March 2024

A walking tour featuring two stations, trains, boats and an.....aeroplane! (yes, you read that right!) See marvels of Victorian engineering, built when the railways came to an area which was once a giant dust heap. Visit the newly regenerated 'railway lands', an old 19th century coal and goods yard, a canal basin, the new train route to Europe and admire the 'cathedral of the railways'.

Location: King's Cross station forecourt, Euston Road
Meet under the iconic station clock at 11:30am

Nearest underground: King's Cross St Pancras
