

YOU TUBE VIDEOS – POINTS TO CONSIDER

URBAN PHOTOGRAPHY

Know your kit – set up quickly

Be creative – long exposures / use existing light

Be careful – try not to upset anyone!!

Shoot from the hip – hit and miss / practice zone focusing / high speed shutter / not wide apertures

Get close (again be careful not to upset anyone)

PHOTOGRAPHY TIPS – HOW TO SHOOT AMAZING STREET AND ARCHITECTURAL PHOTOGRAPHY

Consider silhouette images – people walking past

Use any reflections that might be available – puddles / glass

Try using black and white which can be very effective

STREET PHOTOGRAPHY – LEARN ABOUT COMPOSITION AND PICTURE STYLE

Do your homework. Find a visually interesting location

Be patient to get the shot you want

Try using the black and white picture style setting

NIKON TUTORIAL FOR PHOTOGRAPHING ARCHITECTURE

Perspective distortion – standing too close. Explains why big buildings often appear to tilt backwards.

Wide angle – consider wide angle zoom lenses

Get far enough away

If not enough light use a high ISO setting
