

Our Blackwater u3a garden

Our U3A garden ready for open Garden event and the Maldon in Bloom Annual Gardening Competition. Thanks to Sheila Rowsell for her contribution towards our display.

As it is 13 years since the group volunteered to garden the first public garden area in Maldon. It made the news many years ago with an article for National U3A newsletter.

The flower to acknowledge 13 years is a yellow chrysanthemum and Sheila kindly painted one for the group.

Liz Walden also kindly design a poster for the garden area. This included photographs of the garden and the wildlife who visit.
