

Volunteering for Northampton Sailability

Brixworth u3a Members will be familiar with Northampton Sailability, as the venue for their August meeting for the past few years.

Northampton Sailability is a charity that offers a safe friendly environment in which people with all abilities can experience the joy of sailing. Our aim is to meet the needs and aspirations of all our members by maintaining a varied fleet of boats and operating a high instructor to sailor ratio.

We meet on Monday and Friday and two Saturdays a month from early April to the end of October. From gentle rides around the reservoir to racing and working towards RYA recognised qualifications. We can tailor experiences to meet individual or group needs. Members and Volunteers can also participate in a wide range of trips, including yachting in the UK and abroad

Volunteers play a key roll in the running of the group and we always need more of them. There are a number of roles within the charity, from helping with boat maintenance to assisting people to get on the water, teaching people to sail and more. In return for your time we can offer a full training programme and the opportunity to gain RYA qualifications.

If you have a few hours to spare we would welcome you on board.
