

## Felt Christmas Tree Decoration

For our final festive Craft of the year, a large number of us met to make a felt tree decoration embellished of course with a few sequins and mini character buttons! A few people had to finish at home but they sent in photographs of the final result, resplendent on their Christmas trees. The tree decoration was made of three separate sewn and stuffed pieces, all skewered together with an oversized festive cocktail stick. We had a merry afternoon, with Christmas music, mince pies and plenty of chat!
