

## Heart Shaped Tree Decoration: December '20

The week before Christmas, a small number of crafters met at the Roding Valley Hall to make a felt heart shaped decoration. Although there weren't many of us, it was still lovely to meet and have a socially distanced chat! We managed to sew and chat, have a coffee and mince pie, all whilst creating a lovely little hanging decoration for the tree or perhaps to hang in a window.

We each had different tree animal buttons to sew in the centre, making each heart a little individual.
