

Magic Needle cases: June 2022

At our June workshop, on the hottest day of the year so far, we met to create 'Magic Needle Cases'. This was an idea given to me by another u3a member, Lillian Hinson, for which I am extremely grateful. We had to cover pieces of card with pretty fabric and then carefully arrange and secure 4 ribbons in exactly the correct position so that the needle case could open in any direction and the ribbons magically change sides! It is very difficult to explain the process but we were all chuffed to complete the task and then puzzle over how it worked! No one was able to explain. It's magic!!

Unfortunately, our friendly Group is full at present and we are operating a waiting list. If you are interested in finding out more about the Craft Group, please look at the website. You can also contact me by email fionaelucas@btinternet.com or call on 07540 948 222.
