

Star Books: May '21

This month there was much excitement as the Craft Group met for the first time since last December! We had a lovely meeting in our new home at the Loughton Bowls Club. The venue was declared a success and despite a lot of chatter, catching up on news, some crafting did take place! We made some beautiful Star Books, covered in Japanese Chiyogami paper. There was a lot of precise measuring, cutting and gluing before a range of beautiful books were completed. They are called Star Books as once they are opened the pages can be pulled back into the shape of a star.
