

Painted Slate Coasters: April 2022

This month, the Craft Group met to paint some coasters. This was a bit of an experiment! We each painted two slate coasters with acrylic paint and then varnished them. As usual the results were very varied – some people found the imagining of an achievable design quite difficult. Painting on slate is not the easiest of things but ‘nothing ventured, nothing gained’ as they say! The important thing was that we had a nice creative afternoon with lots of chat and good humour.
