

Lino Cutting November 2021

This month, a very large group of Crafters met to tackle a new Craft for us – that of Lino Printing! Many of us remembered lino printing from our school days, with thick, tough grey lino and sharp carving tools. Nowadays, the lino is soft cut and it is so much easier to work with. Having said that, we still had three accidents – it was a good job that I had brought the u3a First Aid kit with me. berries and a sprig of mistletoe; then we used our ink pads to print some pleasing Christmas cards, embellishing them with stamps, pearls, gems and glitter glue.
