

A Pot of Felt Succulents: September 21

This month, a large number of Crafters met to make a little clay pot of succulents. Before setting about making our felt plants, we painted our flower pots... that seemed to be the easy part! Making the succulents proved to be a bit more difficult: it took a while for everyone to get the hang of the rolling of the petals and the stitching! But by the end of the session virtually everyone had triumphantly produced a lovely decorative pot. The finished pots were all so different depending on the choice of paint and the choice of coloured felt for the plants. Some of the pots verged on the fantasy whereas some looked quite natural. But they were all beautiful! Everyone seemed very proud of their finished arrangements.
