

Visit to Frogmore: August 2022

On a beautiful day towards the end of August, 28 of our members picked up the coach at a very early hour to commence our visit to Frogmore House in Windsor Great Park. We arrived quite early, and awaited our allotted time to start our visit.

We were split into 3 groups, each with our own personal guide, and some toured the beautiful gardens, and the others went into the house.

The guides were amazing and their knowledge was incredible about the house, its history and our Royal Family stretching back hundreds of years. The tour itself lasted about 2 and a half hours and was very informative and also very amusing, with lots of inside information about our royals.

We boarded our coach, and were given a send off by our guides and greeters (a really nice and personal touch).

We were the only tour there that morning and it was a privilege to have a private tour of such an iconic part of our history. We then headed into Windsor itself, and had a few hours' free time before heading back home.

A most enjoyable day out was had by all.
