

## Ma France Unit 3 Les langues – notes de grammaire

### **Je parle trois langues**

### **Je parle un petit peu espagnol**

### **Ça s'écrit comment ?**

How to say which languages you speak

Je parle ...français, anglais, italien.      I speak...French, English, Italian

Je parle portugais.                              I speak Portuguese

Vous parlez anglais ?                            Do you speak English?

If you speak a language well, say **je parle bien**, fluently is **couramment** and if you speak just a little, say **je parle un petit peu**.

If you want a word spelled out say **Ça s'écrit comment ?** (how is that written?). The verb **écrire** means 'to write' and here it is turned into a reflexive verb, so the phrase literally means 'how does that write itself?'

You might also want to ask how something is pronounced: **Ça se prononce comment ?**

To ask what something means, use the expression **Ça veut dire quoi ?**  
**Ça veut dire quoi, couramment ?** What does "couramment" mean?

Je parle trois langues assez bien

L'anglais, c'est ma langue natale/maternelle

Parlez-vous anglais ?

I speak three languages quite well

English is my native language

Do you speak English?
