## Gardening

### WEDNESDAY 20<sup>th</sup> SEPTEMBER - TYRINGHAM HALL, CUDDINGTON.

Tyringham Hall is a large garden with extensive lawns, a water garden and borders.

This was yet another morning only visit, as the owner had said that she could cope with 50 to 60 people in her very large garden. The weather was abominable, it was raining and windy, but our intrepid group turned up to visit. Because of the weather the tables for 'tea' had been set out in a little barn, about half way down the garden, and a marquee put up to extend the barn to make enough space for all 52 of us. The garden was lovely, featuring lots of big pots of hydrangeas and begonias, and at the bottom a beautiful water garden. Before long, everyone retreated to the shelter of the barn, to be treated to sandwiches and cakes, and endless cups of tea and coffee, it was amazing, and very memorable.
