WINDSOR GREAT PARK CHRISTMAS ILLUMINATIONS

On Tuesday 12th December, 50 members of the Gardening Group boarded a coach and travelled to Windsor Great Park to see the Christmas lights. The allocated time slot was 4.30 to 5.00 and the coach arrived just before 4.30. Tickets were handed out and everyone made their way to the entrance which was just outside the grounds of Savill Gardens.

Tickets were scanned as we made our way through the entrance and set off on what was a magical trip through the woods. There were holograms of fairies and elves, searchlights scanning the trees, and lots more. Beside the lake, everyone stopped to admire the coloured fountains playing to music, and further round, more holograms of fairies, unicorns, Father Christmas and his reindeer pulling the sledge.

There was a light tunnel which was constantly changing colour and rippling right through with amazing shapes. Further on there were dragons, wolves, rabbits, reindeer, serpents, and many more creatures, running through the trees as if by magic. At one point the floor of the forest was covered in miles of strands of LED lights giving the whole site a beautiful effect.

There were so many more amazing displays, too many to mention here, but everyone agreed it was a great outing and the weather held fair and the rain didn't set in until we arrived back in Chinnor.

Another fantastic outing for the Gardening Group.
