

Tech solutions (including carbon capture) and forests				
BBC iplayer	The Art of Carbon Cutting	https://www.bbc.co.uk/iplayer/episode/m0019tqd/the-art-of-cutting-carbon	George Haribin asks sculptors to help tell the story of CO2 emissions. Features new, low CO2 cement, steel & concrete sandwiches, fossil-fuel free steel, plant-based plastics, reusable paper--seeking a minimalist future using less	2022
YouTube	Reaching Net Zero: Does BECCS work?	youtu.be/24ESIXSa1sU	A short animated video from think-tank Chatham House on how BECCS (carbon capture & storage) would work, and whether it makes sense in	2020
YouTube	Ecosia Is everyone getting tree planting wrong	https://www.youtube.com/watch?v=tN8RE02iNII	Ecosia (sponsors a search engine) explaining why successful tree planting is a complex process.	2019
YouTube	A new way to remove CO2 from the atmosphere Jennifer Wilcox	https://www.youtube.com/watch?v=XY_lzonfE3I	Explains carbon capture and storage. Makes the expense and difficulty clear. Clearly necessity to reduce CO2 emissions asap rather than rely on this technology.	2018
