

Available speakers from u3a membership:

Name (plus email and background)	Subject(s) on offer	On-line only or willing to travel?
<p>Brenda Ainsley b_ainsley@hotmail.com A u3a member and trained Climate Reality Leader. Co-leads the online u3a group 'Countdown to COP' and has delivered several National Talks for u3a.</p>	<p>*The Climate Crisis – and Some Solutions</p>	<p>Willing to travel within striking distance of Nottingham</p>
<p>David Dundas david.dundas1@gmail.com Qualified chemist and oil/gas well engineer. Worked in refinery management, energy products marketing & consultant to EU on toxic waste disposal. Fellow of the Lunar Soc: Leader of their Climate Change Working Party</p>	<p>*Why hydrogen? *Our energy future in the UK *Nuclear power *Hydrogen powered trains</p>	<p>On-line only</p>
<p>Ian Hawker ianhawker101@gmail.com Retired telecoms research engineer now runs the East Suffolk U3A Climate Change group.</p>	<p>*Climate Change Overview (60min), OR... *Specialist topics (45min each): Solar, Tidal, Transport, Oceans, Energy Storage, COP27, Hydro power, Biodiversity, Tipping Points, Geothermal, Climate Adaptation, Climate & Health, Regenerative Agriculture, Sahara Solar/Wind/Storage, Buildings - Concrete & Steel.</p>	<p>Zoom unless in East Anglia or Essex</p>
<p>Ann MacGarry annmacgarry@gmail.com Education officer at the Centre for Alternative Technology (CAT) for 28 years and currently runs workshops in schools on climate change and tropical forests.</p>	<p>*Eco-footprinting The Eco-footprint is a very useful way of measuring our impact on the planet and of the limits of what we can do. It adds some common-sense realism to some of the suggested solutions. *Zero Carbon Britain CAT's work on this shows a way of approaching decarbonisation and illustrates how we could move to a zero carbon future – lots to discuss about choices to be made.</p>	<p>Either, depending on where it is (based in Machynlleth in Mid-Wales)</p>

<p>Antony Turner antony@realworldvisuals.com Has lectured at major universities, given a TEDx talk, and worked with a wide range of private and public organisations. His visual story-based approach has inspired many people to set strategy, take actions and make a difference.</p>	<p>*Carbon awareness, climate change and how retirees can respond This talk is aimed at the wider U3A membership who may be interested but unaware of the issues.</p>	<p>Zoom unless travel from Teignmouth, Devon makes sense</p>
