

NEW AGE KURLING NEWS OCTOBER 2021

We have just had our fifth get together to play New Age Kurling and it's so good to be back with everyone and seeing confidence returning as we make every other Tuesday afternoon a safe sociable Kurling event.

This Tuesday, we tried out a newly devised plan to make playing even more competitive but although it was fun, we will be going back to Plan A.

The new way involved marbles and I confess it felt like I had lost my marbles as it didn't quite pan out how it had in my head.

I would like to take this opportunity to thank the group, both the players who have been playing for months and our very welcome new members who indulged me and didn't get frustrated when I forgot my own new plan and made it up as I went along. I am very lucky to be involved with so many U3A members who are happy to muck in, help out and make the group a joy to be part of.

Here are our most recent winners of the infamous trophy and medals. Well done Winners and to everyone who took part.

Moira Stimpson was on a nationwide tour publicising her memoirs on Kurling and Me The Full Story and Brian stepped in to handover the trophy to an euphoric Sue White.

Wendy Bradley handing over to our latest champion, Michael Griffin.

He came, he kurlled, he conquered !

Sue White happy to relinquish her hold of the Kurling trophy and giving a delighted Wendy Bradley the chance to hold onto it for a minimum of 2 weeks.

Fame is fleeting.
