

# **August 2023     Whitelee Wind Farm and one unusual shot**

**Ann Brooks**

**Taken with Nikon D3200. edited slightly to darken sky, using the basic photo editor available on my PC.**

**The Runner.**

**Taken with iphone 13 then edited to black and white**

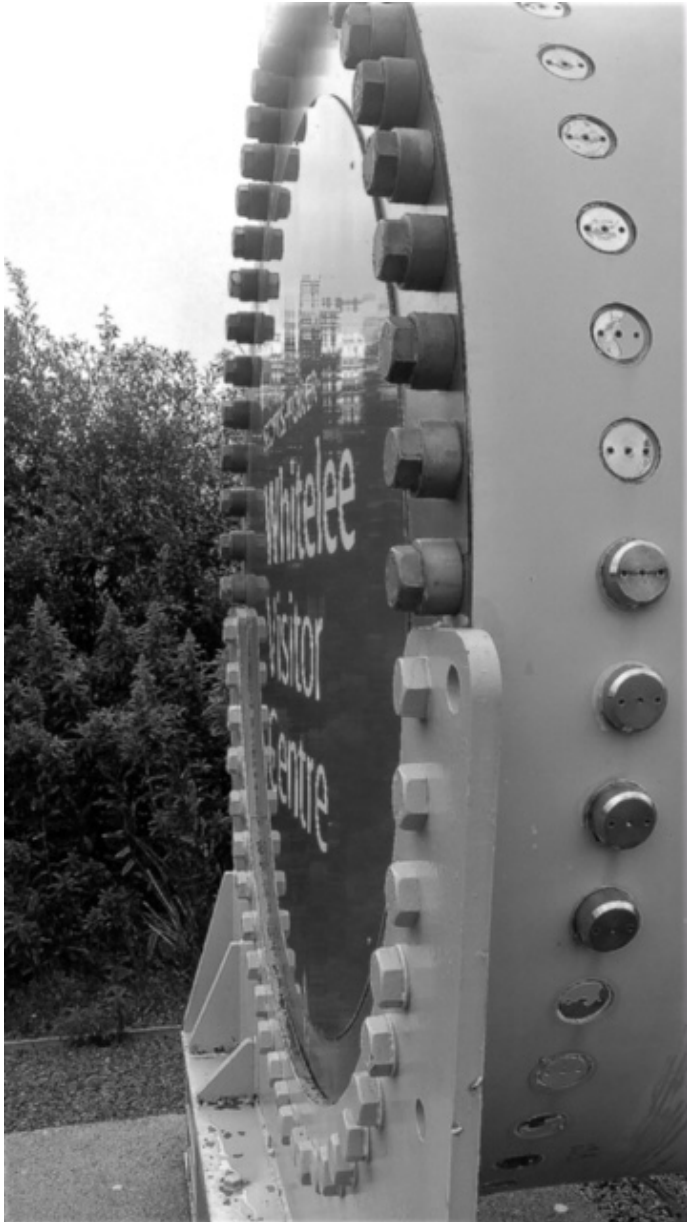

**The unusual**

**Taken with iphone 13. It's one end of the bug hotel found near the entrance to the visitor centre**

**August 2023**

**Jo Capek**

**I anticipated that I would have to add a bit of contrast into photos that were of basically grey subjects taken on a very grey day.**

**Now what's over there that's so interesting ?**

**August 2023**

**Bruce Cutler**

**Minor enhancements and cropping only .**

**The unusual.**

**“Whitelee’s plans for a display of seasonal wind turbines this Christmas are well advanced!”**

**August 2023**

**Vicky Blainey**

**Photos with minor editing.**

**I thought this looked a bit like a  
bird in flight**

**The unusual.**

**A bit of a fake but I didn't notice  
anything unusual.**

**Taken on iphone using  
a Harris Effect app which separates  
the colours.**

**August 2023**

**William Dyer**

**The Unusual- William certainly did find an unusual subject for this month's challenge.**

**Something you don't normally see off Argyle Street.**

**August 2023**  
**Derek Hamilton**

**Photos were taken on  
Nikon Z50 camera.**

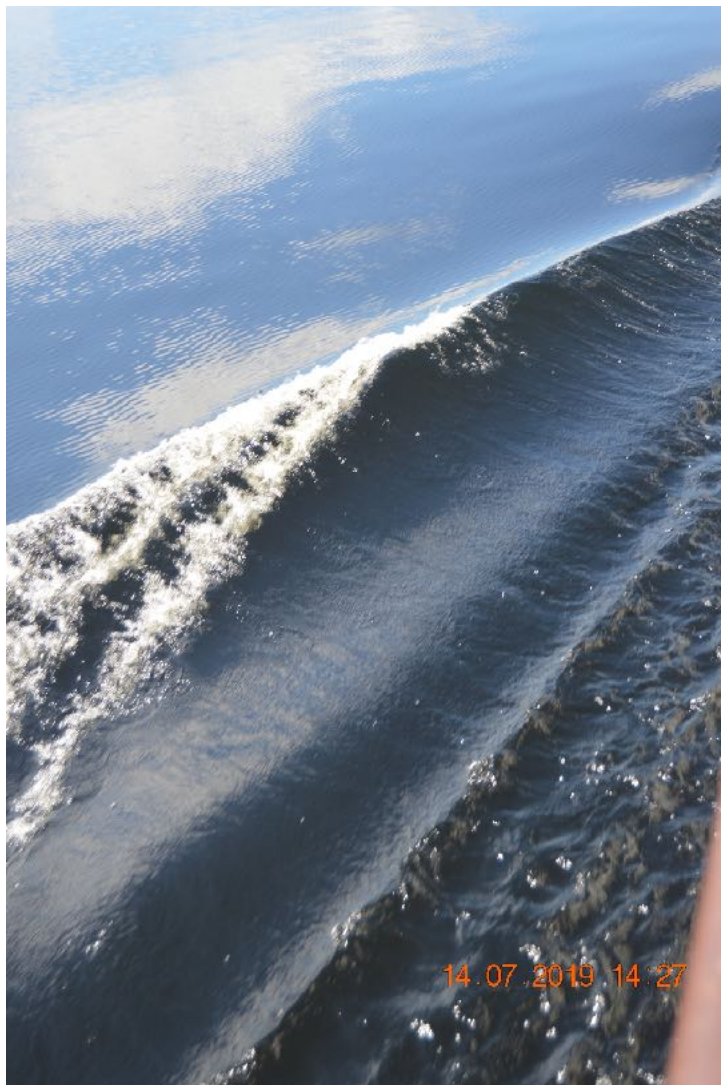

**Most of the turbines  
were at a standstill.**

**The heather certainly  
brightened up a dull day.**

**August 2023**

**John Milne**

**August 2023**

**Mehmood Mir**

**This could have been the unusual image.**

**A row of wind turbines and the sheep doing the same !**

**Most definitely unusual**

**“A seven legged sheep listening to music on ear phones”. Captured just at the right moment on the wind farm in May this year.**

**August 2023**

**Janice McKenzie**

**Taken on camera, mono filter applied  
and increased brightness**

**Also taken on camera no editing.**

**The unusual**

**Taken with iPhone . No editing**
