

In the interests of full transparency, we'd thought you may be interested in the research behind the changes to the pick-up points for coach trips.

On the map below the postcodes are marked in red and the number of members who live in that particular postcode are in blue.

We thought it was quite interesting that although our u3a is Epsom and Ewell our members come from a wide number of KT postcodes that extend out to Tadworth and Leatherhead in one direction and Surbiton and Kingston Upon Thames in the other as well as some from SM, SW and TW postcodes

We previously picked up in KT17, KT19 and KT21 and the new pick ups are in KT19 and KT4. We are also trialling for the afternoon tea KT4 and KT17

This will remain under review as obviously it is a controversial topic.
