I would like to suggest we offer Third Age Matters Magazine subscription Only at the beginning of each membership year in September.

This will ensure that those paying for a year's subscription of the quarterly magazine will receive 4 issues. Accepting subscriptions after this means we cannot guarantee members will receive their 4 copies.

It becomes complicated if we try to carry over outstanding magazine issues into the following year, especially were keeping the accounts straight are concerned.

We can add a small proviso to the form stating that to ensure members receive their full year copies of TAM the subscription is only available each September when the Annual Membership renewal is due.
