

VISIT TO HELMSLEY WALLED GARDEN JULY 2023

We recently visited Helmsley walled garden and as luck would have it we managed to pick a fine day with some sunshine.

After our usual coffee stop sat outside in the sun we moved off to tour the garden. The central walk was full of stunning summer colour
There were some beautiful fibre glass sculptures to admire and a rather cute elephant in the memorial garden.

The whole garden is set with the back drop of the old castle ruins. One of our group was keen to use this as a in the u3a painting group – Good luck Judith can't wait to see the results.

For the keen gardeners there were some trial beds and some very productive veg beds

.

After an enjoyable lunch we had a short time wandering round the town and found the most delicious ice creams at, strangely, the butchers shop.
