

# GK&D u3a Tech It Easy Group - Help us to help you!

We are the Tech IT Easy Interest Group. Our aim is to help Garforth Kippax & District u3a members to learn about technology/information technology (IT) so they can use it safely and with confidence in their lives. Completing this survey will help us know how we can do that.

*1. Which of the following would you say most closely describes how you feel using about computers, tablets, smart phones and other technology?*

- ☐ I am very confident. I use technology routinely in many areas of my life and could teach others.
- ☐ I am generally able to use technology well and have a reasonable understanding of how most of it works.
- ☐ I get by but I don't always understand what I am doing.
- ☐ I often can't make it do what I want and get frustrated with it.
- ☐ I avoid using technology whenever possible.

*2. What would you like to learn more about or learn to use?*

*3. How could we help you? (Eg one to one help, items in the newsletter, resources on our website, training sessions or courses, talks at the monthly meeting etc.)*

*4. Do you have a specific query you would like our help with? Or do you have experience that could help us and other GK&D u3a members? Please write it down below and let us have your name and phone number or email address so we can contact you.*

Thank you!

Please put your completed survey in the box provided at the end of the GK&D monthly meeting today or take it home and contact Sue Lakin on 07974 216512 (call or text) to arrange return.
