

Somewhere over the rainbow breakdown.

Please find the links for the song below. These are four instructional videos I've created for those who need them or would like to view them. You will find them on you tube but clicking (maybe ctrl+click the link should take you to them.

Let me know what you think and whether you feel this is a good way of communicating between us?

The You Tube page belongs to Glenfield Strummers so we can upload anything we want onto it

I am using it for the guitar group as well

Hope you enjoy

Bill
