

DIGITAL PHOTOGRAPHY

-

At our September meeting, as well as enjoying and discussing the wide range of images contributed by members from our Leighton Moss visit and their holiday trips, we discussed our future programme. We decided that we want to include some more trips in the future although this would not be until next year and would involve more than a two hour session.

We also talked about a potential presentation by the group about the prom. We have already taken shots pre the work starting and it was agreed that we would get shots of the work in progress. An aspect of this could be showing the prom. through time using some of the archive images collected by the Photographic Society and shots taken during the pre lockdown open days at the Lido.

We broke new ground in October by having a session including video work. This included audio-visual presentations and we started with a showing of the audio-visual on Grange, which the group produced before lockdown for Grange U3A's 20th Anniversary, but was never shown. Members brought along their own mini videos so we could share experiences including different software.

New members, of any ability, are welcome as are new ideas for topics for inclusion in the programme. We meet on the third Thursday of the month at 2.00 pm usually in Grange Institute.
