

GARDENING

Earlier in the year we felt we had our length of the Promenade under control and so we offered to help our fellow gardeners in the Civic Society by tackling the next-door length of the Promenade up to the underpass from Main Street car park, as in the photograph.

We have now returned to our normal "patch" and are looking forward to putting in new plants and bulbs in the autumn.

If we had a couple of extra helpers we could offer to do this on a more regular basis and I am sure this would be welcomed by the Civic Society gardeners and the passing locals and visitors alike who are very generous in their appreciative comments.

If you think you could help then why not just give me a ring or come down on a Monday morning and have a chat.

Brian Lewis
