

LOCAL EXPLORERS

We were very well entertained on our first outing on 14 February to hear all about the Wurlitzer organ at Bowness Royalty cinema.

A group of over 30 of us heard all about the restoration and history of this magnificent cinema Wurlitzer organ from Mark and heard it being played by Ian. An amazing repertoire of sounds was produced! The Furness restoration group comprises volunteers who raised over £25,000 to obtain, restore & install the Wurlitzer at Bowness cinema. A few people went down below the stage to see its intricate workings after watching a short silent Laurel & Hardy film accompanied by Ian on the Wurlitzer.
