

Criteria for including information on the Hackney U3A website

We propose the following criteria for publishing information on an organisation, activity or event to the Hackney U3A:

- **Groups:** The information is relevant to a specific interest group such as a resource which members of that group will regularly refer to
- **Events:** The information is relevant to a specific event organised by Hackney U3A, taking place on a particular date; such links should therefore be set with an appropriate expiry date
- **U3A Info:** Information, events or guidance available from our national or regional U3A which is relevant to our members
- **Hackney Info:** The information is relevant to Hackney U3A members such as activities or interest groups organised for Hackney residents that appeal to the spirit of U3A's motto of "learning, staying active and having fun in later life"; the information is relevant for the whole borough

Publishing new material on our website will be at the discretion of the Website Editor who will consult the Committee if in doubt.
