

SOUTH CENTRAL NETWORK of U3As

Aims, Objectives and Administration Guidelines

INTRODUCTION

A Network is a generic term for a group of U3As which have chosen to work together for support and the mutual benefit of the members of the U3As concerned. They are formed organically and are not imposed by any external source.

The SCN is an informal network not currently governed by a formal constitution. Although it operates completely independently, The South East Region trustee will be invited to meetings where appropriate. An active communication link via our own website will be maintained to keep each member U3A group informed of events and other opportunities provided by the Third Age Trust.

The network shall not interfere with the operation of individual U3As. The main objective would be to provide “added value” via the opportunity to exchange information and explore best practices through better communication links between member U3As
