Developed over centuries, with influences of 'Capability' Brown and Humphrey Repton, this historic garden is the perfect venue for a group visit at any time of the year. Famous for its autumn colour, the garden is also magnificent in spring, with a stunning display of Rhododendrons and Azaleas. Summer brings water lilies and to see the parkland with its wild flower meadow and riverside walks. There is a welcoming tea room. We will also enjoy a guided tour during our visit.
