

## **Hu3a Policy Statement: Supporting Local Community Groups**

From time to time Hu3a is approached by other local community groups with requests for support by promoting their activities, programmes, opportunities and vacancies for volunteers.

Decisions will be made on a case by case basis, within the following guidelines:

1 Requests will usually be supported if the organisation in question is a charity, or has a charitable intent. An example would be to support the Friends of Hinchbrooke Hospital with a request for volunteers to do ward rounds delivering newspapers etc.

2 Requests will usually be denied if:

- payment by Hu3a members is involved
- the organisation in question is a commercial enterprise
- there is a clear conflict of interest with Hu3a aims and activities

The decision will be made jointly by the Hu3a Chair and Secretary who, if in doubt, may refer to the Hu3a Committee.

If approved, the item will be published in Upstream in a box headed Community Update which carries the strapline *As a responsible community group Hu3a is pleased, where appropriate, to help other community groups achieve their aims*

Statement approved by the Hu3a Committee
