Started by bassist and composer Adrian Litvinoff in 2007 INTERPLAY has built a deserved reputation for its evolving repertoire of original tunes, jazz favourites, and global grooves. The band performs at jazz and arts festivals, in jazz clubs and community venues.

INTERPLAY features some of the most creative players from the English Midlands who are equally at home performing to dedicated jazz fans and general audiences. Their performances frequently encourage a level of audience involvement that is rare for contemporary jazz.

The band's first CD Introducing Interplay (Silvery Records (SRCD033) came out in June 2010. Jazz CD Reviews called it 'melodious and memorable' and 'warm and imaginative'.
