

Midweek: www.midweekband.co.uk

Midweek originated from Jazz Workshops in Leamington Spa, which started in 2009. Christine (vocals), Sue (sax), Martin (keyboard), Steve (bass) and Damon (drums) decided to try and develop their performance skills to play the type of easy listening and jazz sounds that an audience would enjoy hearing as much as they enjoyed playing!

There are some standards such as Summertime and Black Orpheus, as well as more recent numbers such as Moondance and Sweet Hours.

The band is developing its own gentle and swinging groove, introducing new and varied numbers to the repertoire.
