In July we welcome back Fool's Gold. *Dark Light* is the new Fool's Gold zoom show for 2021. It has been created as a wholly new show specifically for zoom using some of the clever functions available to build a fascinating and creative show. This time they have connected the songs to one story: a fascinating mystery based on a wholly true history from 1900.....and they say, "it's amazing how many songs of the time that you will know, smile, and sing!"

We do not meet in August

In September Keith Forster is coming to tell us all about the National Memorial Arboretum. He will discuss the history of The National Memorial Arboretum and focus on how the Arboretum passes on the baton of Remembrance, by focussing on a number of significant memorials. He will also discuss the importance of symbolism

In October we welcome Steve Herra who was a purser for Cunard, his last ship being the QE2. His talk is based upon the history of Cunard from 1840 until the present day about some of the celebrities and stars who sailed aboard Cunard ships.
