

Card Making.

We have returned to "normal" since September 2021 however we have had to cancel two meetings during the year due to Covid 19. Flexibility has not always been possible due to late identification, but we have managed to produce nine cards this year. The 'Design team' has included both Paula and Susan who have each developed and produced two cards for us to make.

Julia Wright

German Language

This small but friendly group continue to meet on alternate Friday mornings at 10.30am until noon in March Library. We are translating a book about carnivals in Cologne at the moment, they sound fun. We are also doing a course on the internet covering many subjects.

Anyone is welcome to join us, it is very light hearted, so why not come along, you are sure of a welcome.

Monday Morning Health Walks

Owing to a bout of Covid quickly followed by a broken ankle, I have been unable to participate in the walks for several weeks. However my place has been very ably taken by Eileen Nicholas and Joyce Thorne. The group meet every Monday morning at the City Road car park at 10am. The walks usually take between 45 and 60 minutes and cover various walks in March, including along and under the bypass and many other places. There is always room for more people, so why not come along and give it a try. We always end up at Wetherspoons for a coffee and natter.
