

# FAMILY HISTORY

WE MEET ON THE LAST THURSDAY OF THE MONTH

(September to November, January to May).

Members of the group take it in turn to host the morning which starts at 10am and usually finishes about 12 noon.

The experience of our members who are researching their family trees varies from 30 years to new comers just starting out. Members discuss successes and problems they have encountered and hope other come up with suggestions for new lines of enquiry. We swap magazines, books and DVDs and give details of new websites found. Several of our members subscribe to Ancestry and are happy to help other with negotiating this large genealogy website as well as others eg Family Search, Genes Reunited and many more.
