

## **SPECIAL NOTICE FROM SARUM U3A COMMITTEE**

### **SUSPENSION OF ACTIVITIES FROM 20<sup>TH</sup> MARCH 2020**

The announcement by the Government about action to be taken to reduce the spread of the coronavirus means that all Sarum U3A activities, including Monthly Meetings and all group activities, should cease forthwith and until further notice. To spread the word as quickly as possible, we would ask anyone in contact with a fellow member who does not have access to the internet to pass the word along by telephone or by word of mouth where that is possible. It looks likely that this imposition will last for several months, but the Committee will let you know as soon as possible when normal service can be resumed.

Please keep in touch with your special interest groups and if possible set up home study groups for continuing interest and research. The Newsletter will continue to be circulated and the Editor welcomes any item on how members are keeping in touch with each other in these difficult times.

The Committee hope you are all able to keep safe and look forward to the time when we can again together enjoy our membership of Sarum U3A.

Please look at the website to check for any updates on the situation. In the meantime if member has a question concerning U3A activities please address it in the first instance to our membership officer Alan Reeves whose contact details are listed on the contact page. He will pass on the question to the relevant committee member who will get back to you as soon as possible.
