

Scunthorpe and District u3a

Getting involved

This is very much YOUR u3a. It is run by its members for its members. The more you put in, the more you will get out of it. Don't hide your light beneath a bushel. We all have something to contribute - even if it is only helping set out the room before a meeting, helping the tech team set up equipment, acting as a meeter and greeter before a meeting and just talking to other people.

Think about joining the committee. Members are elected every year and we need new blood to bring new ideas and stop us getting moribund. Meetings are held monthly and are informal and friendly. Rediscover your lost skills!

You may have skills or interests you want to share with others. New ideas and new groups are welcomed with open arms. You will be given plenty of help and are support to get started. Just come and talk to one of us (you can identify committee members as they have a lanyard) or send a message via the website.

Please don't be shy - pitch in and join the fun...
