DATA PROTECTION PRINCIPLES

The General Data Protection Regulation identifies key data protection principles.

Principle 1 - Personal data shall be processed lawfully, fairly and in a transparent manner

Principle 2 - Personal data can only be collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes.

Principle 3 - The collection of personal data must be adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.

Principle 4 – Personal data held should be accurate and, where necessary, kept up to date. Every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay.

Principle 5 – Personal data must be kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals.

Principle 6 - Personal data must be processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

LAWFUL, FAIR AND TRANSPARENT DATA PROCESSING

S&D U3A requests personal information from potential members and members for membership applications and for sending communications regarding members' involvement with the U3A. Members will be informed as to why the information is being requested and what the information will be used for. The lawful basis for obtaining member information is due to the contractual relationship that the U3A has with individual members. In addition, members will be asked to provide consent for specific processing purposes such as the taking of photographs. S&D U3A members will be informed as to who they need to contact should they wish for their data not to be used for specific purposes for which they have provided consent. Where these requests are received they will be acted upon promptly and the member will be informed as to when the action has been taken.

Where the U3A organises a trip that requires next of kin information to be provided, the U3A will require the member to gain consent from the identified next of kin. The consent will provide permission for the information to be held for the purpose of supporting and safeguarding the member in question. Were this information to be needed as a one off for a particular trip or event then the information will be deleted once that event or trip has taken place unless it was to be required – with agreement – for a longer purpose. The same would apply to carers who may attend either a one-off event or on an ongoing basis to support a U3A member with the agreement of the U3A.

There may be occasional instances where a members' data needs to be shared with a third party due to an accident or incident involving statutory authorities. Where it is in the best interests of the member or the U3A in these instances where the U3A has a substantiated concern then consent does not have to be sought from the member.

Photographs are classified as personal data. Where group photographs are being taken members will be asked to step out of shot if they don't wish to be in the photograph. Otherwise consent will be obtained from members in order for photographs to be taken and members will be informed as to where photographs will be displayed. Should a member wish at any time to remove their consent and to have their photograph removed then they should contact the Membership Secretary to advise that they no longer wish their photograph to be displayed.

S&D U3A will also ensure that group conveners are made aware of their responsibilities in relation to the data they hold and process. Committee Members will stay up to date with guidance and practice within the U3A movement and will seek advice from the Third Age Trust National Office should any uncertainties arise. S&D U3A Committee will review data protection requirements on an ongoing basis as well as reviewing who has access to date and how data is stored and deleted. When Committee Members and Group Conveners relinquish their roles, they will be asked to either pass on data to those who need it and/or delete data.

The committee members of S&D U3A have a responsibility to ensure that data is both securely held and processed. This will include:

U3A members are entitled to request access to the information that is held by S&D U3A. The request needs to be received in the form of a written request to the Membership Secretary of S&D U3A. On receipt of the request, the request will be formally acknowledged and dealt with expediently (the legislation requires that information should generally be provided within one month) unless there are exceptional circumstances as to why the request cannot be granted. S&D U3A will provide a written response detailing all information held on the member. A record shall be kept of the date of the request and the date of the response.

DATA BREACH NOTIFICATION

Were a data breach to occur action will be taken to minimise the harm. This will include ensuring that all S&D U3A Committee Members are made aware that a breach has taken place and how the breach occurred. The Committee shall then seek to rectify the cause of the breach as soon as possible to prevent any further breaches. The Chair of S&DU3A will contact National Office as soon as possible after the breach has occurred to notify of the breach. A discussion will take place between the Chair and National Office as to the seriousness of the breach, action to be taken and, where necessary, the Information Commissioner's Office would be notified. The Committee shall also contact the relevant U3A members to inform them of the data breach and actions taken to resolve the breach.

Where a U3A member feels that there has been a breach by the U3A, a committee member will ask the member to provide an outline of the breach. If the initial contact is by telephone, the committee member will ask the U3A member to follow this up with an email or a letter detailing their concern. The alleged breach will then be investigated by members of the committee who are not in any way implicated in the breach. Where the committee needs support or if the breach is serious they should notify National Office. The U3A member should also be informed that they can report their concerns to National Office if they don't feel satisfied with the response from the U3A. Breach matters will be subject to a full investigation, records will be kept and all those involved notified of the outcome.
