What does a RSLA do?

- Promotes “finding out” in all its different forms
- Supports individual u3as and networks to identify, set up and complete Research & Shared Learning projects.
- Facilitates projects in conjunction with a range of partners, such as other Research Network members, museums, galleries and universities

An RSLA will normally have some experience of “finding out”, whether it be within a u3a setting or in an educational or work setting and will be able to support and advise on the process of a project, whether large or small.
