

## **Testimonial 2 – Gelhi J – Creative Writing**

Seeing your email address so long after the event made me think of the amount of work that goes into the organisation of these Summer Schools. It just made me feel like saying how much I enjoy them and how grateful I am to all the organisers who give so much of your time for our enjoyment.

I tried Creative Writing this time – an easy option after a couple of years of maths.

The whole event is a really good way to spend a few days, with lasting memories a happy bonus.

Roll on next year!
