

## The North Yorkshire Library App

Find this in the SEARCH option on the App Store.

A library number and PIN are necessary when accessing free digital resources using this App, but instructions on how to obtain these are available through the App.

### **Facilities available include:**

Reserving and renewing books borrowed from a library

Downloading adult's and children's books using Overdrive/Libby

Online access to a huge selection of newspapers and magazines from over 120 countries, in 60 different languages, using PressReader

Downloading a large variety of current and previous magazines, using RBdigital

This was all we had time to explore in this session; even more options are available, including reference resources and research into ancestry. It was agreed that we spend more time on exploring this App in our next session, on March 8th 2021.
