The Media Screen shows all the media records you have stored in your Project. These can be Photos, Documents, Census records and items “cut out” from websites e.g. Index data from FreeBMD.

The Family Tree Chart

The Family Tree is drawn up automatically. However when you start it may not look like this. Again it is something one can modify to meet your own requirements. One can vary the text displayed and add media images to enhance the chart.

The Publishing Function

Different reports can be produced using the Publishing function. The Report uses the “Facts” data to produce a Word document on individuals or family groups

Residence: 1881 (age 8) Audley, Staffs
Residence: 1891 (age 18) Audley, Staffs
Residence: 1939 (age 65-66) Otme, Newcastle under Lyme
Address: 43, Wereton Rd, Otme
Death: Aug 1957 (age 84) Audley, Staffs

Martha
GRIFFITHS,
19047, age
31

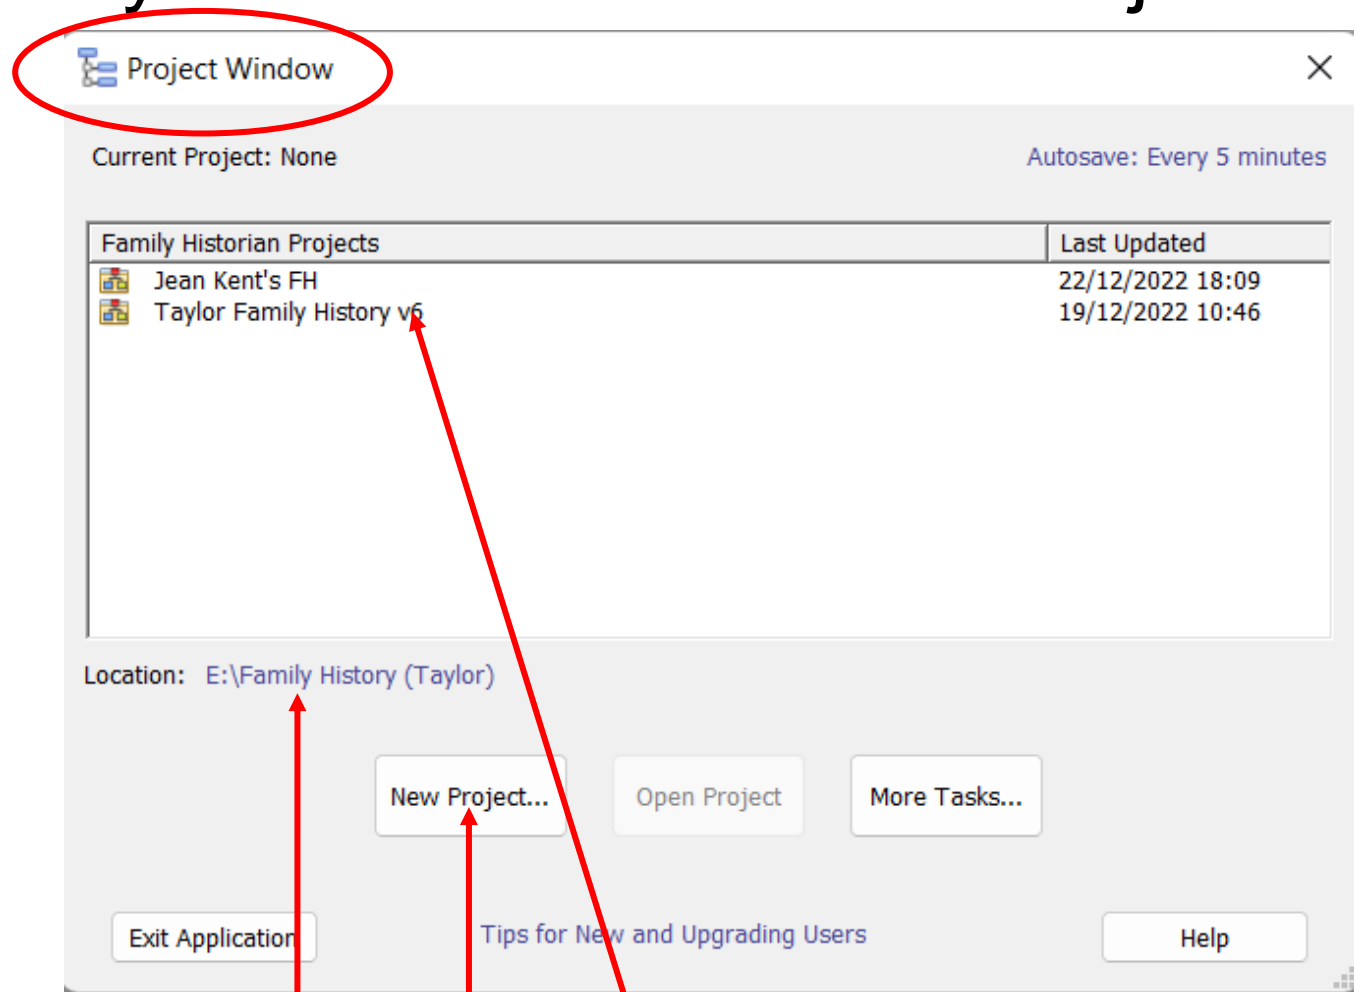

Child 1: Mary KENT

Name: Mary KENT
Sex: Female
Birth: 1893 Audley, Staffs

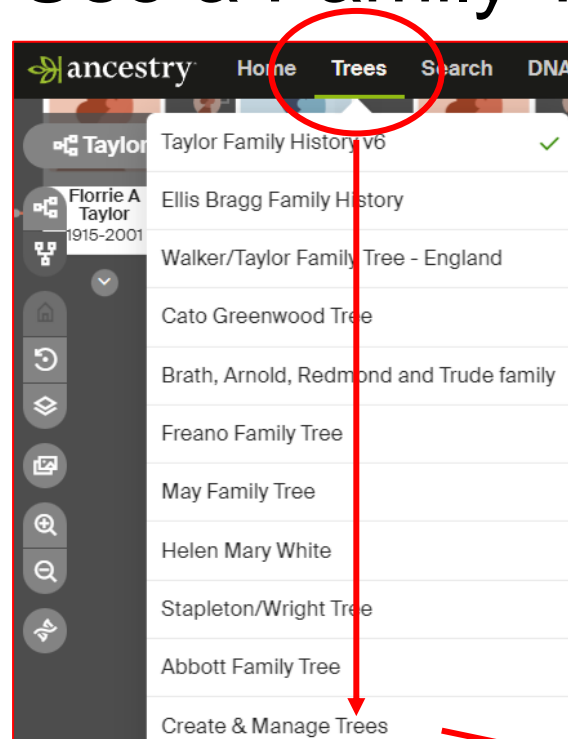

Daughter:
Mary KENT,
1901, age 8

Data Entry – Select or Create a “Project”

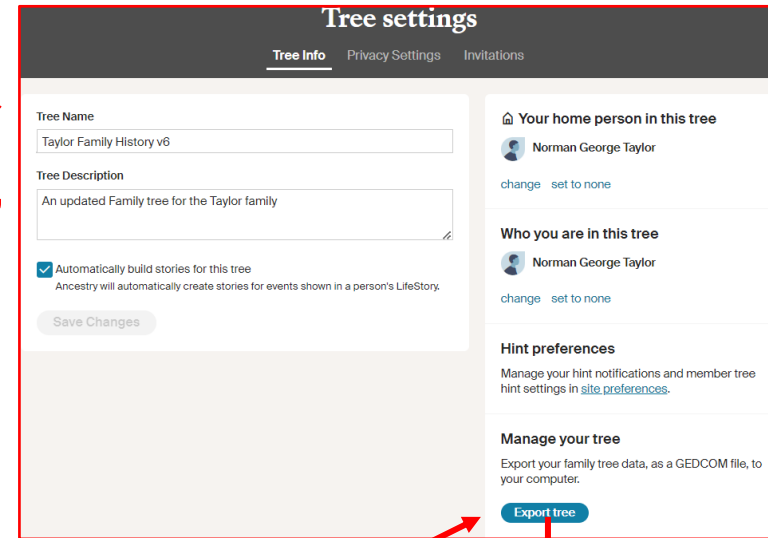

The Project Window allows you to start a new “Project” (entering the data manually) or select one that already exists or downloading from an existing source. The location that Family Historian (F.H.) will use for all the data is shown above

Use a Family Tree from a Commercial Website

In Ancestry go to “Trees”, then “Create & Manage Trees”. From there to “Tree Settings” and “Export tree”. This changes to “Download your Gedcom” when file is ready to download – not before

Manage your tree

Export your family tree data, as a GEDCOM file, to your computer.

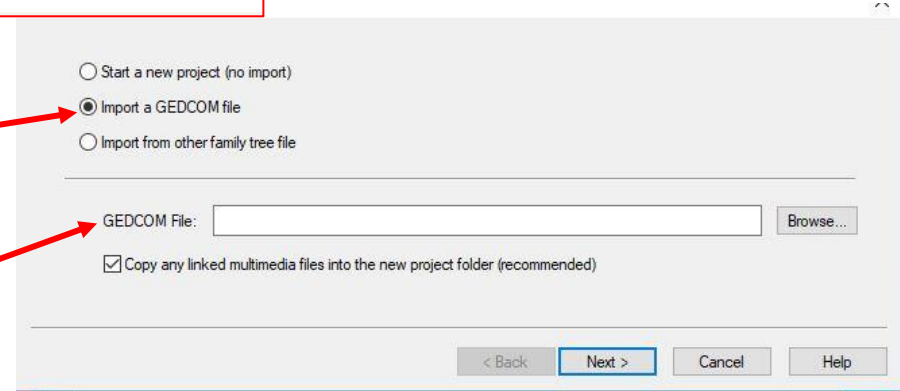

[Download your GEDCOM file](#)

[download tips](#)

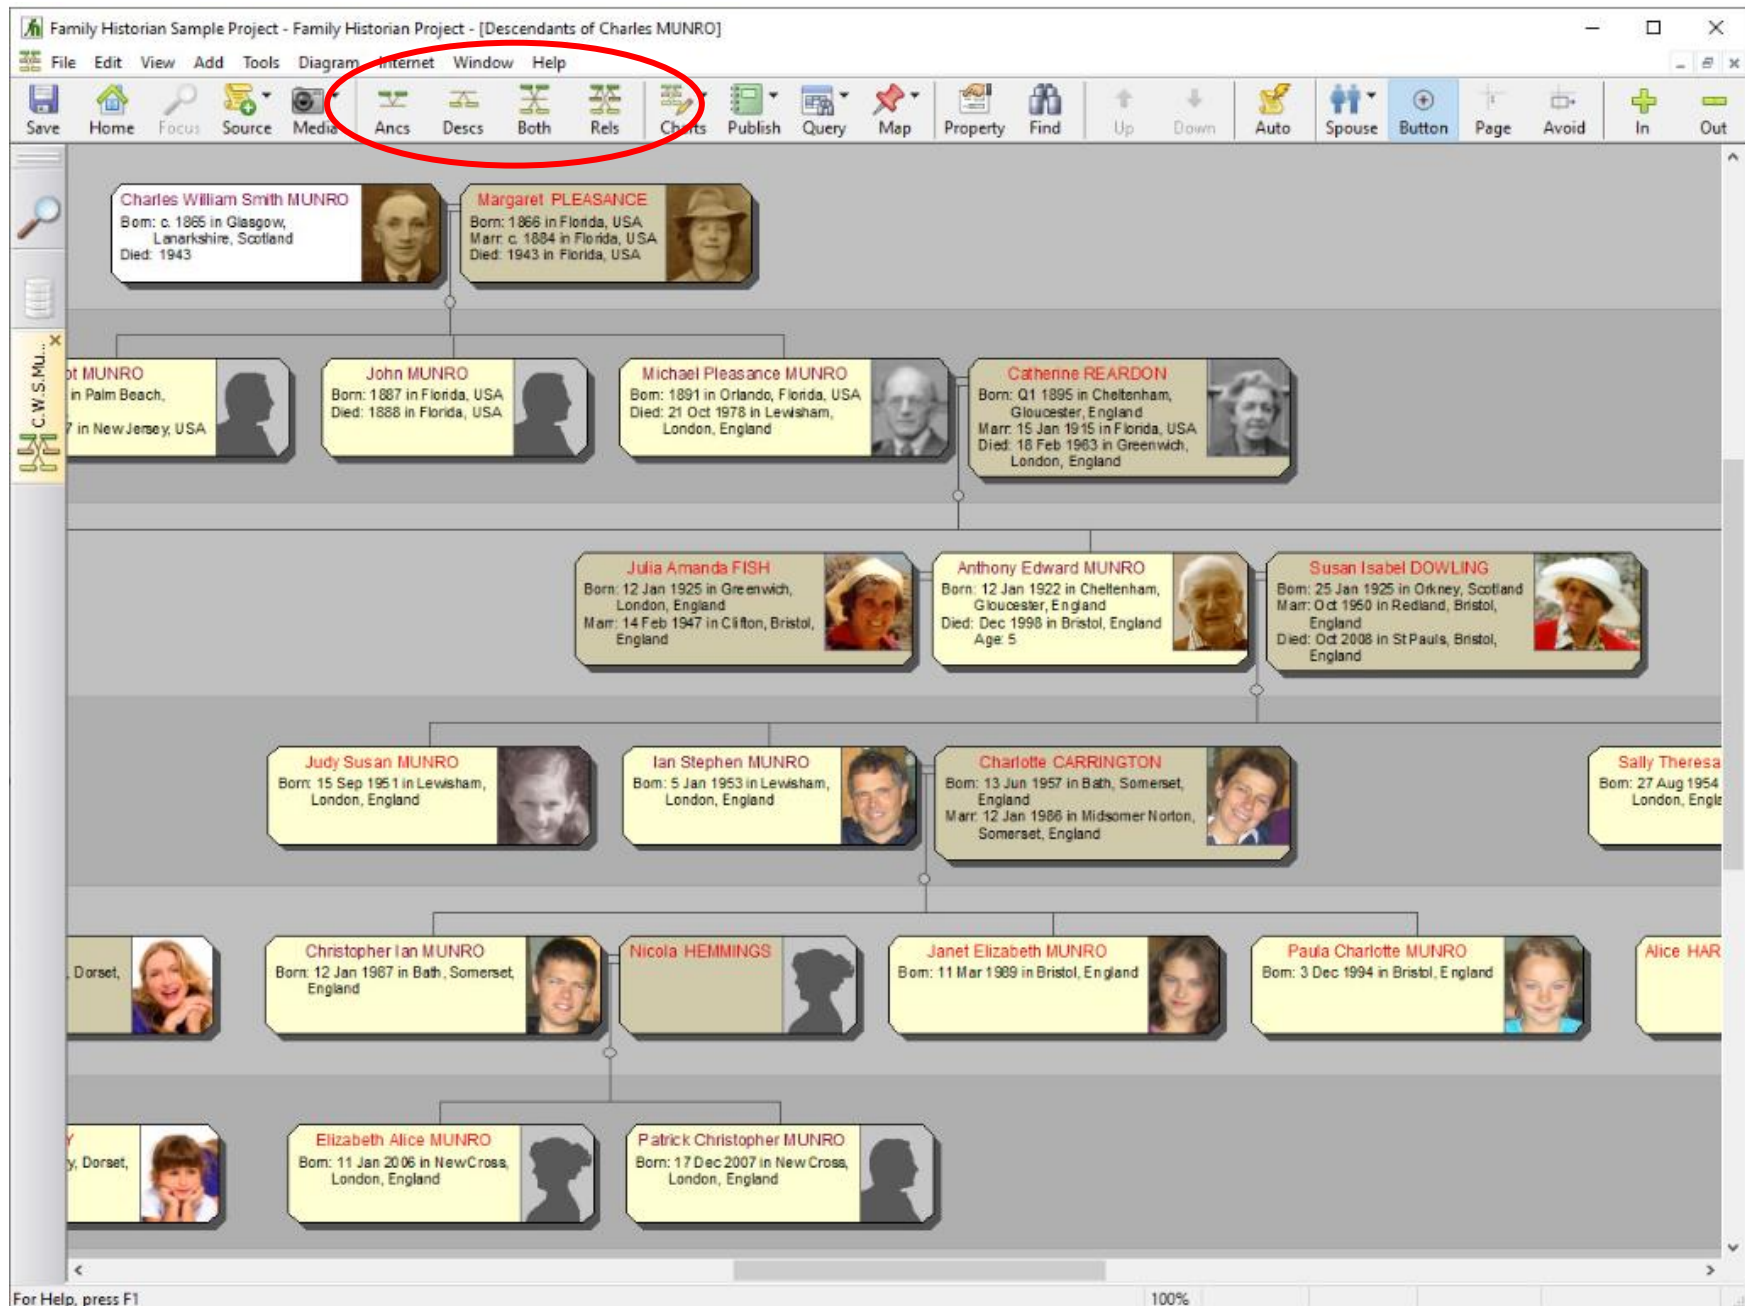

Name	Date Modified	Role	Tools
Ellis Bragg Family History View tree overview	28/04/2019	Owner Invite family	Tree settings
Taylor Family History v6 View tree overview	12/11/2020	Owner 3 people invited	Tree settings

[Create a new tree](#) [Upload a GEDCOM file](#)

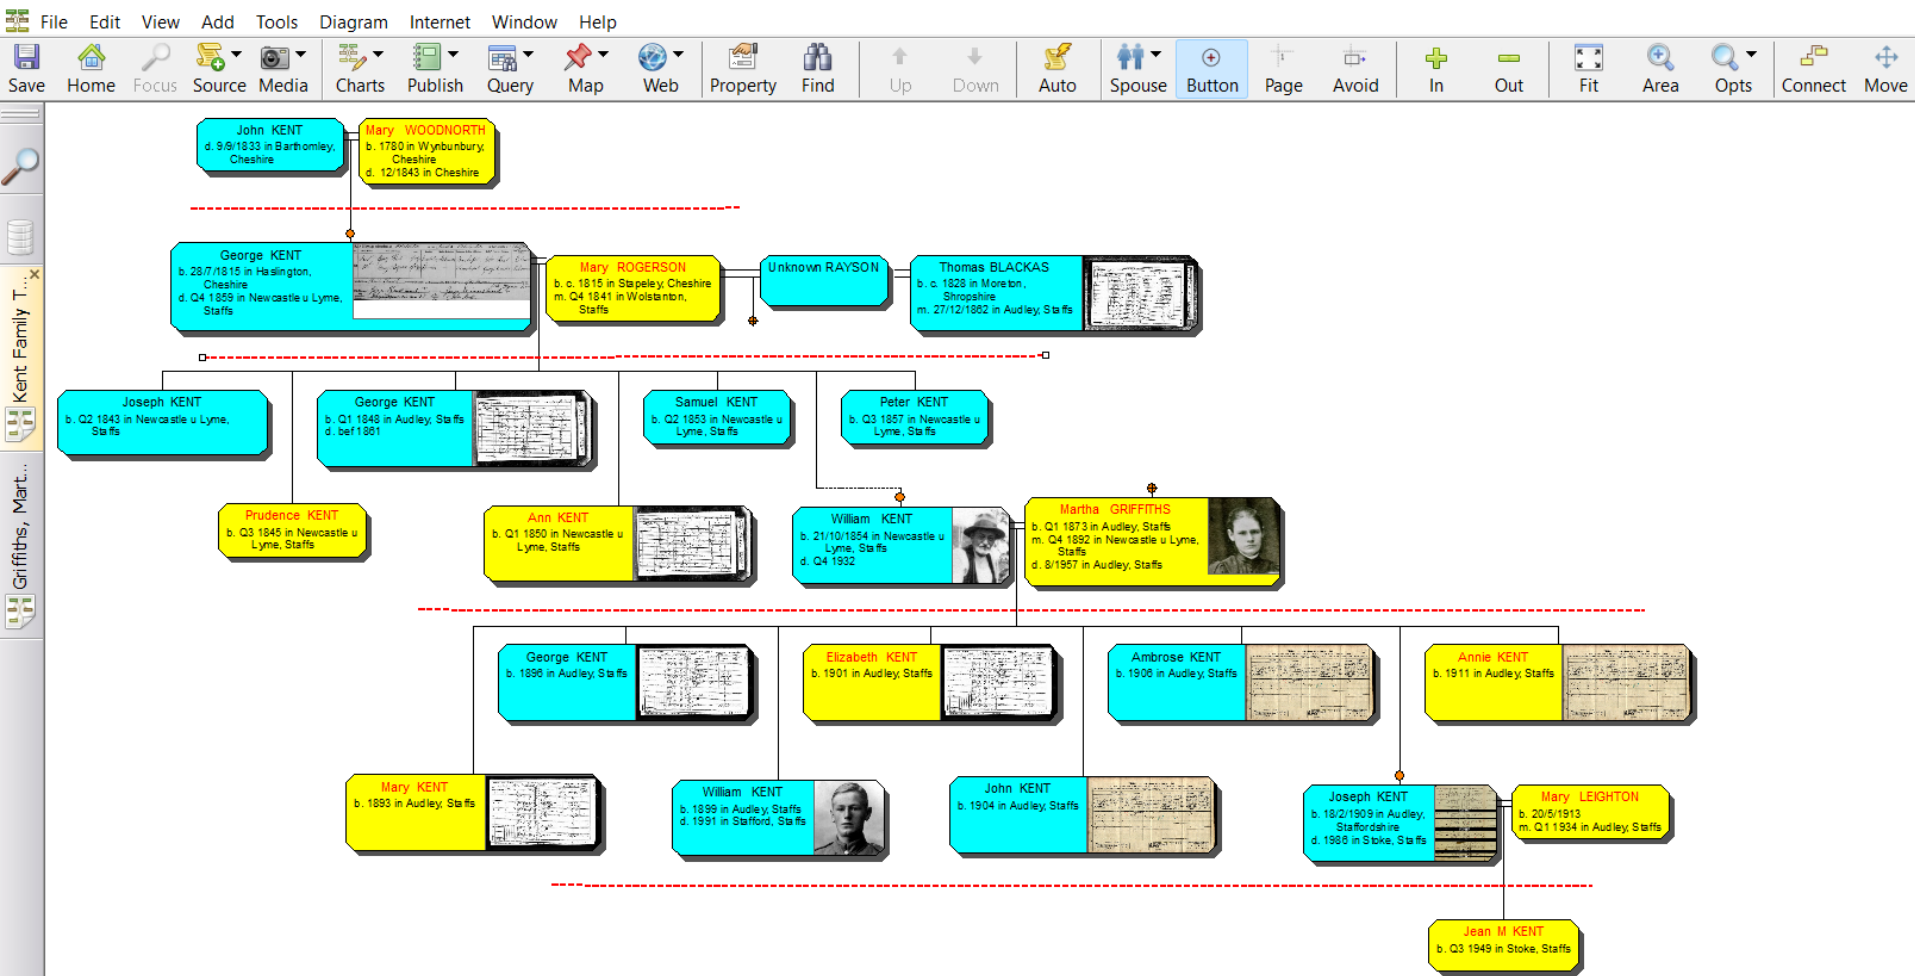

Use “New Project” on the F.H. Project Window page & click on GEDCOM file. Enter file name

The Family Tree Chart - "Out of the Box"

The Family Tree Chart - As I Like It

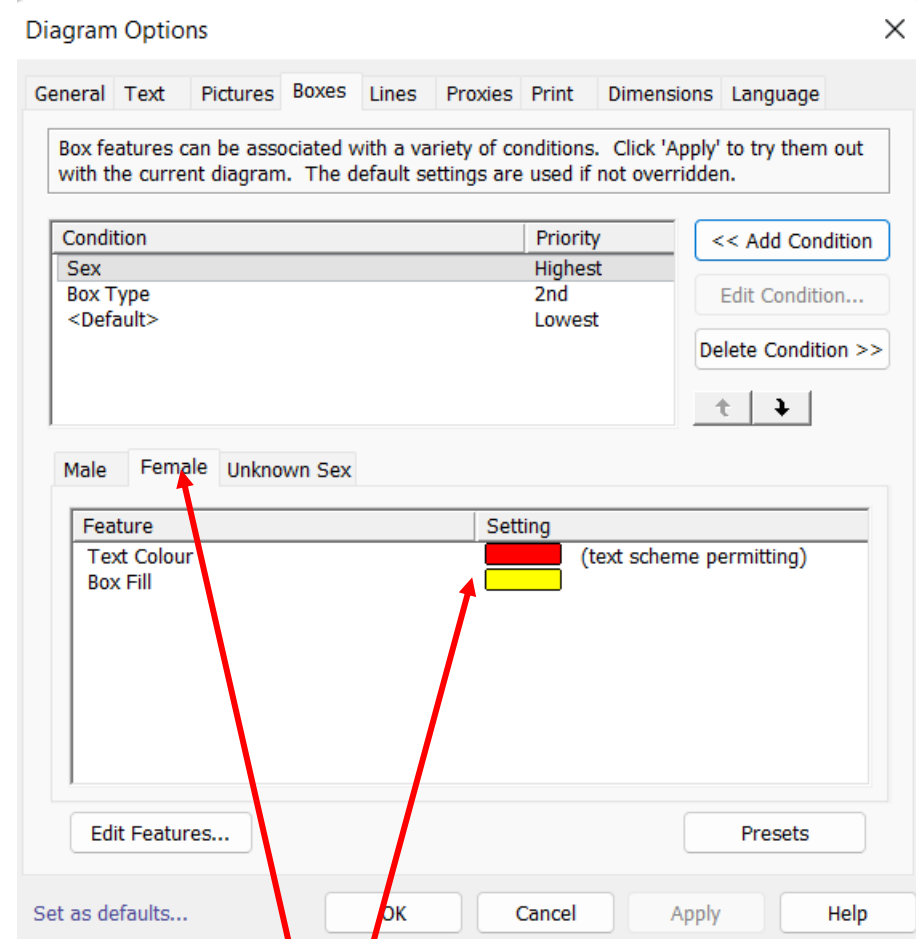

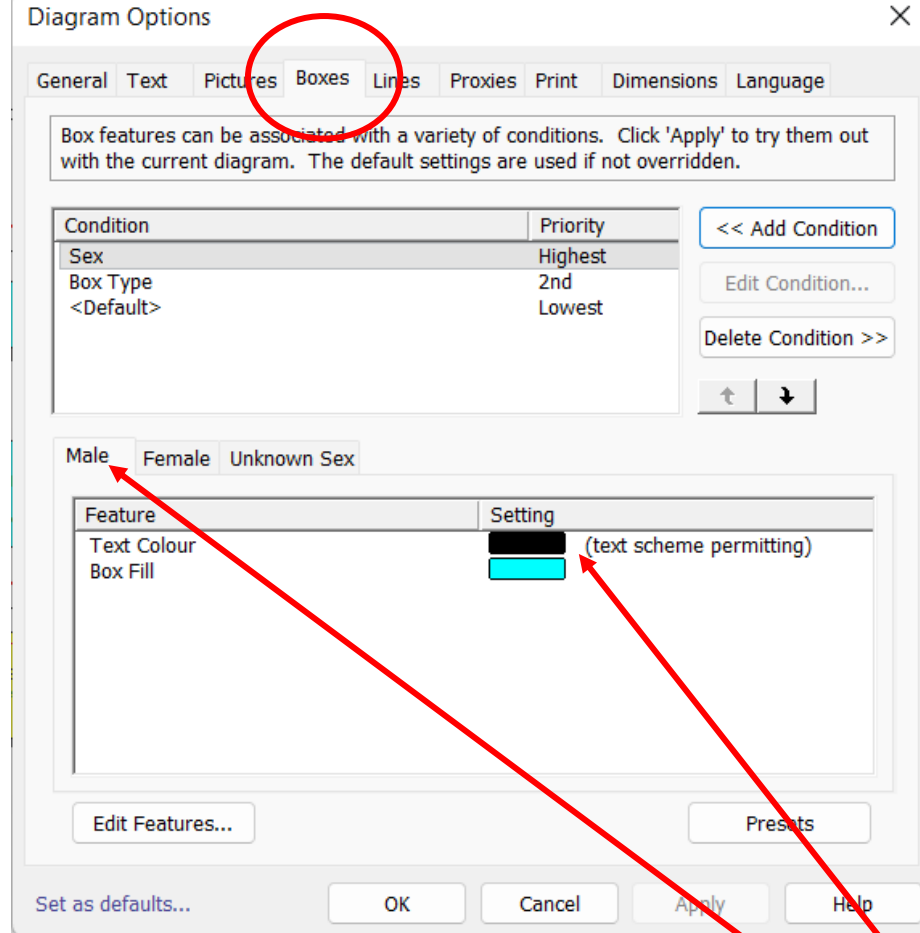

I have removed the “background”, changed text and box colours. I have reduced the width of the chart by moving boxes down, creating a second row for each generation. I have added Photo's, Census records and other documents into the chart as “Media”.

The Family Tree Chart – How to modify the Chart

The screenshot shows the 'Diagram' menu open, with 'Options...' selected. The 'Diagram Options' dialog box is open, showing the 'General' tab. The 'Tree' dropdown is set to 'All Relatives'. The 'Generations Up' and 'Generations Down' are both set to 15. The 'Style' is set to 'Layered'. The 'Orientation' is set to 'Top-down'. The 'Alignment' is set to 'Top'. The 'Scaling' is set to '100%'. The 'Spouse display options' are set to 'Spouses in own box'. The 'Spouse layout options' are set to '2nd spouse on other side'. The 'Background' is set to 'One colour'. The 'Boundary Lines' are set to 'No boundaries'. The 'Relationship descriptions' are set to 'None'. The 'Inc. [[private]] Notes' checkbox is unchecked. The 'Remove [[and]]' checkbox is checked. The 'Check for duplicates' checkbox is checked. The 'Number out-of-sequence spouses' checkbox is checked. The 'Show branch exp' checkbox is checked. The 'No-offspring mar' checkbox is unchecked. The 'Font...' button is visible. The 'Diagram Options' dialog box has tabs for 'General', 'Text', 'Pictures', 'Boxes', 'Lines', 'Proxies', 'Print', 'Dimensions', and 'Language'. The 'Text' tab is selected, showing the 'Current Text Scheme' as 'Birth, Marr, Death (compact)'. A list of 'Text Schemes' is shown, with 'Birth, Marr, Death (compact)' selected. The 'New...' button is visible. The 'Clone...' button is visible. The 'Edit Text Scheme...' button is visible. The 'Delete Text Scheme' button is visible. The 'Margins & Tabs...' button is visible. The 'Set as defaults...' button is visible. The 'OK' button is visible. The 'Cancel' button is visible. The 'Apply' button is visible. The 'Help' button is visible.

Use “Diagram” & “Options” opens up a window that allows you to make changes. First the Background – one colour White, then the content of the Boxes – you can include almost anything.

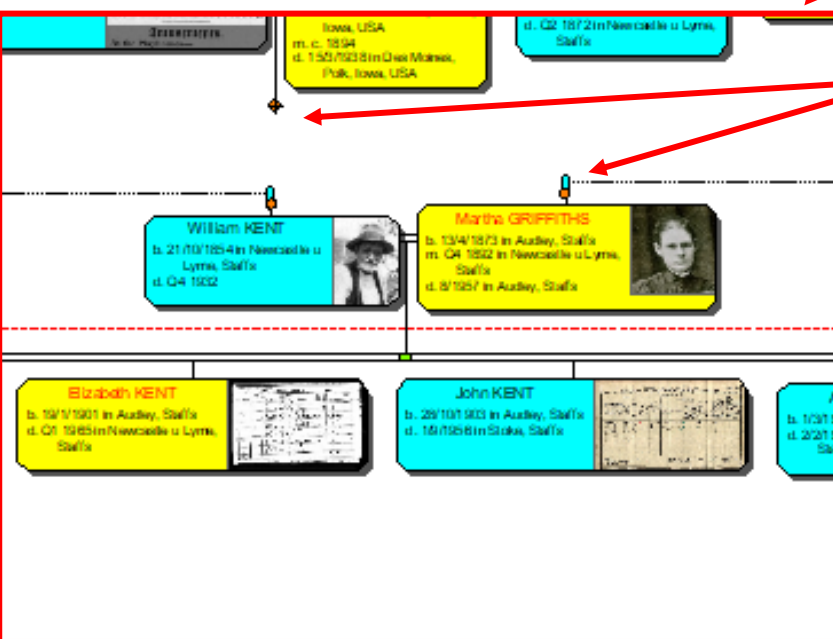

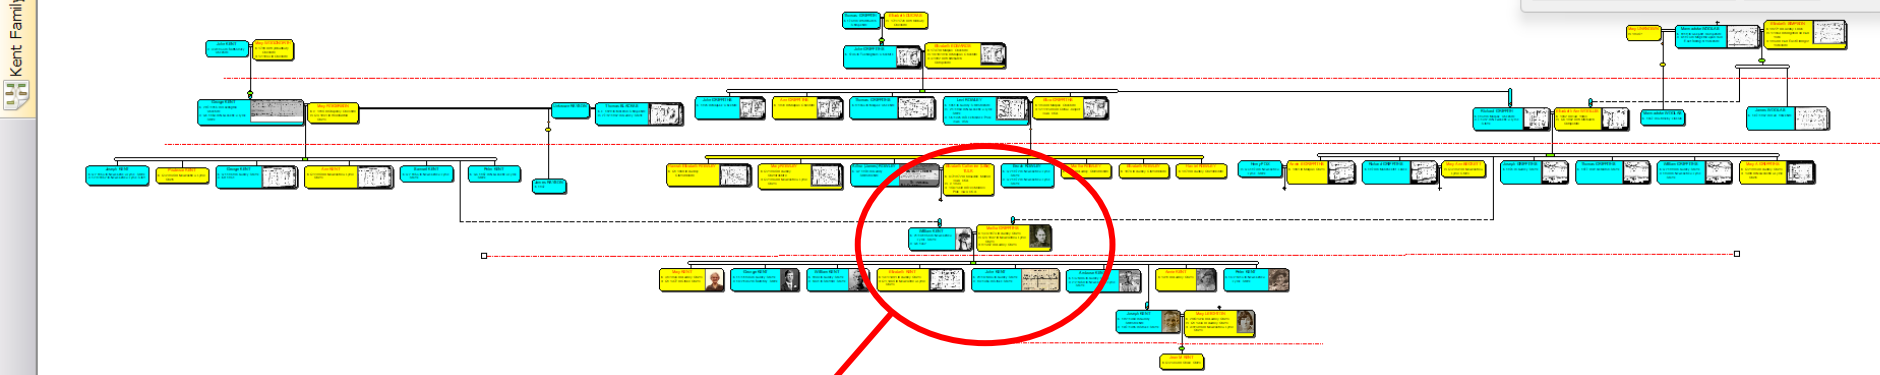

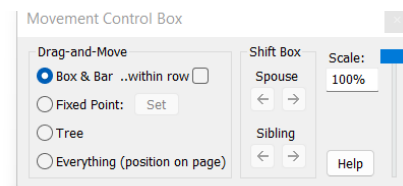

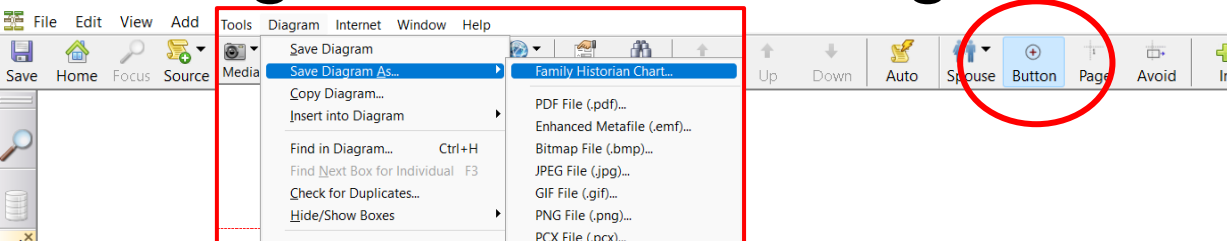

The Family Tree Chart – How to modify the Chart

In Diagram Options, using the “Boxes” window one can modify the Text and Background colours for Male & Female ancestors.

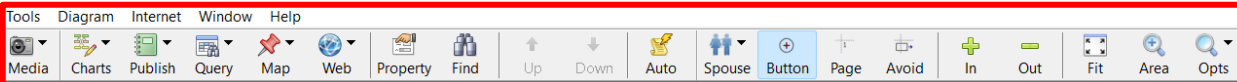

Making the Chart manageable

The “Button” on the Header Bar must be enabled

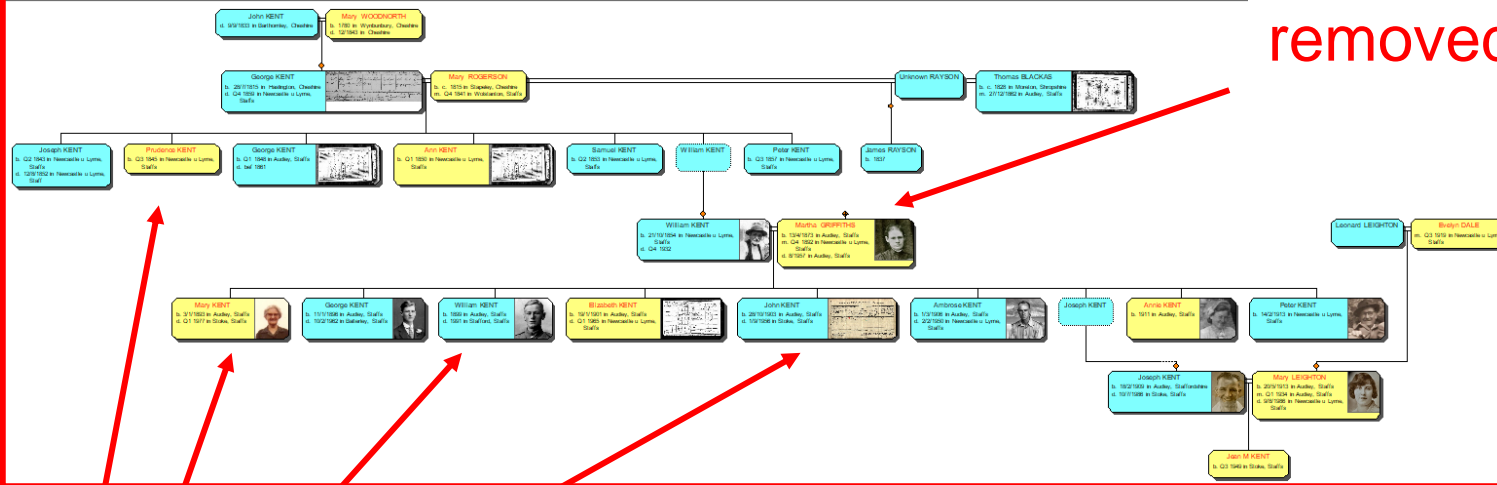

Click on the “Button” above (or below) the selected person will remove all Ancestors / Descendants associated with that person from the Chart, leaving the remaining branch of the family

The Family Tree Chart – moving the boxes

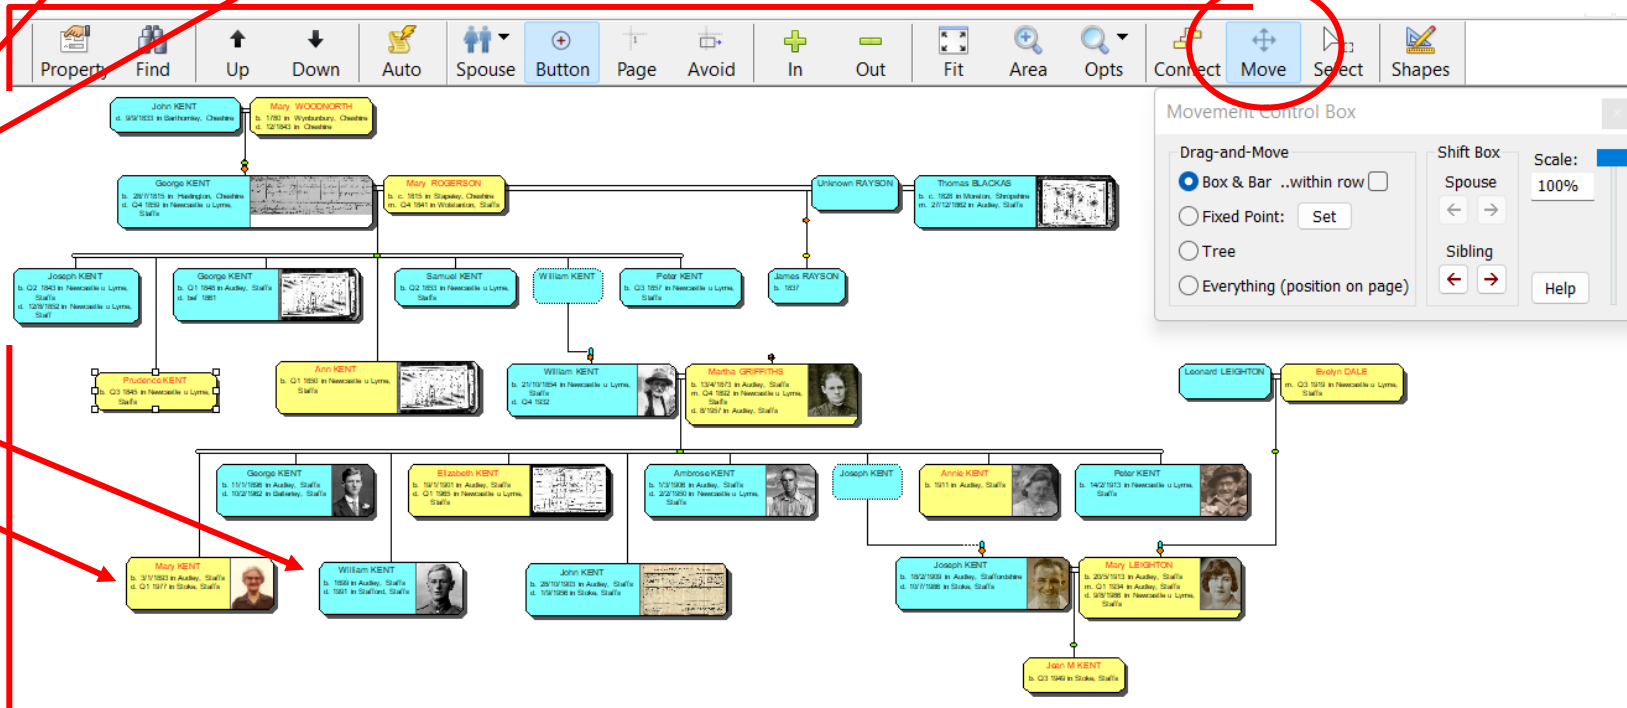

Martha Griffith family removed from chart.

The “Move” button must be enabled

Select and move each person down

Movement Control Box

Drag-and-Move

Help

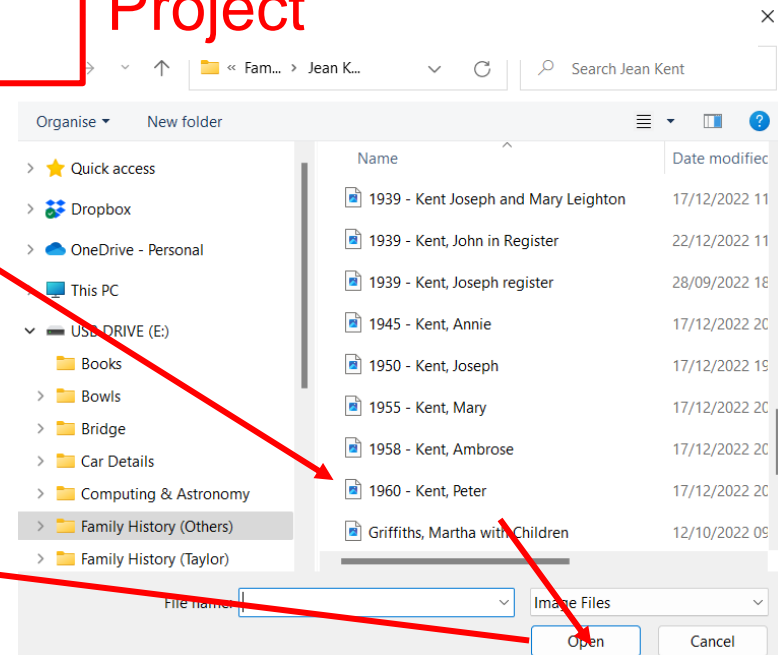

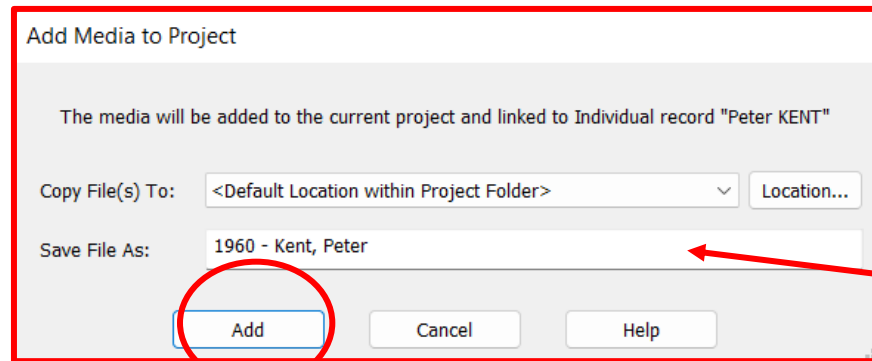

Scale: 100%

The Family Tree Chart – adding “Media”

Select the individual you want to add photo to and then “Media” & “Add Media”.

Select from the folder on your PC, the item to be added, click on “Open” then “Add” to Project

The Family Tree Chart – Extracting a Head & Shoulders Image

Select “Media” and then the image to edit. Select “Link to Face” to draw box around the head. Then select “OK”.

The screenshot displays a family tree software interface. The main window shows a family tree chart with a yellow box for Mary LEIGHTON and a smaller box for Peter KENT. The 'Media' tab is selected in the top navigation bar. A red circle highlights the 'Media' tab. A red arrow points from the 'Media' tab to a media item in the 'Media' list, which is labeled '1960 - Kent, Peter' and 'c. 1960, age 47'. Another red arrow points from this media item to the 'Edit Media Item' dialog box. In the 'Edit Media Item' dialog, a red box is drawn around the head of the man in the photograph. A red arrow points from this box to the 'Link to Face' button. Another red arrow points from the 'Link to Face' button to the 'OK' button in the bottom right corner of the dialog box.

One can use the “Source” or “Citation” facility to note where one found the source of one’s data. I don’t use it!

I extract the information from a website and store it under “Media” for all the people it is relevant too. I can also add textual data under “Notes” against that person.

The Files Produced by Family Historian

The Project files are stored in your named Folder. You can click on the Project File to start F.H. & open your project

The “Jean Kent’s FH.fh_data” holds key information – in particular the GEDCOM file that can be uploaded to a commercial website
