Military Bridge movement information for 14 teams

<https://bridgeaf.com/bridge-movements-team-events>

On the above website, three different movements are described for 14 teams but only one is considered here, as shown below:

14 Tables Incomplete American Whist - 12 Rounds 24 Boards

American Whist movement for 14 tables with 12 rounds. Play 2 boards per set to play 24 boards, 28 boards in play. East/West pairs start by moving up 6 tables. Then East/West move down 2 tables. At round 4 East/West reach their home table so they move down 4 tables. Boards are passed down one table for each round including the first round, apart from round 4 when they skip a table.

14-table incomplete American Whist movement

Military Bridge event - suggested text of what the Technical Director might say in advance

The movement we are using is called an 'incomplete American Whist' movement. It is designed so that a NS pair from team A stays at the same table throughout and plays every EW pair except their own and one other pair. This is because we play 12 rounds and there are 13 other teams. Having 14 tables requires us to have 28 boards in play, so there will also be 4 boards that are not played (these are different for each team). For those teams that are played, however, the same boards are played when the opposite team members play each other.

To start with, teams are numbered 1 to 14 and should sit at their numbered table. The NS pairs will stay in the same seats throughout the play, while the EW members of the team will move around the room. There are twelve 2-board rounds; 6 before lunch and 6 after lunch. Each table has a table movement card as normal showing the opponents, the boards to be played and what happens at the end of the round. Can the player sitting N please check this every time there is a move to ensure they are playing the right boards with the right opponents. You will see that normally EW move down 2 tables at the end of each round (so from Table 1, EW move down to Table 13), but there are two skip movements arising – after rounds 3 and 6 – see the movement cards. The boards move down 1 round each time, except after round 3 when they skip a table. The movement card tells EW where to go at the end of the round, and where the boards should move to.

To start with, can EW pairs please now move up 6 tables from their home table e.g. EW pair 1 will start on the table hosted by NS pair 7, EW pair 8 will start on the table hosted by NS pair 14 and EW pair 9 will start on the table hosted by NS pair 1.

We are running to a timetable of course. We plan to run the morning play session from 10:30 to 12:00, with six 2-board rounds of 15 minutes. 15 minutes is ample for 2 boards; slow play at one table can make life difficult for all of the other 13 tables, with knock-on delays from one table to another and players who are not slow can end up being penalised when it's not their fault. So please make every effort to keep to the timetable. I will ask for pairs to move at the allotted time, even if some tables haven't finished. This means that, even allowing for a brief run overtime to finish, a slow table might not play their second board or not be able to finish their second board if they have not got far enough with playing it. I reserve the right to make a judgement on the result should this happen, at my sole discretion. I'm sorry if this sounds harsh, but with so many tables, it's essential we all try to run to time.

The afternoon session of 6 rounds will run from 13:30 to 15:00. Please sit down at the right table after lunch at 13:25 to allow for a prompt start.
