

### **Using the laptop computer with wifi dongle**

The U3A Acer laptop kept in filing cabinet, the Acer laptop is the newer laptop

Switch on using top righthand button on keyboard

Login to Torridge U3A Groups with the appropriate password

### **To use wifi**

Get EE wifi dongle in yellow box in filing cabinet

Plug yellow cable into yellow EE box and the other end in to usb socket on computer

Press black button on side of EE box for 5 seconds to switch it on

If using the u3a pc this will automatically connect to wifi

If using own pc/tablet you need to change to wifi network to MY WIFI A148 and when prompted enter the password MYWIFI0851, network connection should be established within a few seconds.

Your own device should remember these setting and log on automatically in future

Please switch off wifi box after use and put back in box, then back into filing cabinet with any other equipment used.
