```
         Am
1. Imagine me and you, I do,
                  G
   I think about you day and night, it's only right
                  F                                          E7
   to think about the girl you love, and hold her tight, so happy together.

         Am
2. If I should call you up, invest a dime,
                  G
   and you say you belong to me and ease my mind,
                  F                                     E7
   imagine how the world could be so very fine,  so happy together.

A              Em               A          C
